**2003-2004 Funding Determination Requests
March 2004**

2003-2004 (AND BEYOND)

The following determination of funding request is recommended for approval by the State Board of Education for five years (2003-2004, 2004-2005, 2005-2006, 2006-2007, and 2007-2008) at the 100 percent level. The reasons justifying a level higher than 70 percent in 2003-2004 and beyond are that (1) the school met the minimum criteria specified in regulation for the 100 percent level; (2) the school presented sufficient evidence (taking the totality of the request into account along with any other credible information that may have been available) that the 100 percent funding determination level is necessary for the school to maintain nonclassroom-based instruction that is conducted for the instructional benefit of the student and is substantially dedicated to that function; and (3) the school met AB1137 criteria for a five-year funding determination.
