### RECOMMENDATION

Approval     Approval with conditions     Denial

The district must submit a report to the Safe and Healthy Kids Program Office (SHKPO) no later than May 2005 that describes its progress in evaluating the *Michigan Model for Comprehensive School Health Education* program. The district must submit a report to the SHKPO no later than May 2006 that describes the progress made by Central Michigan University in submitting the results of the evaluation to (1) the National Registry of Effective Programs, (2) the University of Colorado's Center for the Study and Prevention of Violence, or (3) the California Healthy Kids Resource Center, for possible designation as a Model, Blueprint, or Validated Program. The district must be willing to take part in a formal evaluation, if requested. The district must also evaluate its own comprehensive prevention program in accordance with the district's approved Local Educational Agency Plan.

### SUMMARY OF PREVIOUS STATE BOARD OF EDUCATION DISCUSSION AND ACTION

State Board Policy 03-01 contains guidelines for approval of applications for waiver of the NCLB requirements that Title IV funds be used for "science-based" prevention programs. This is the first waiver submission for the *Michigan Model for Comprehensive School Health Education* curriculum.

### SUMMARY OF KEY ISSUES

This application requests a waiver so that the local educational agency may use the "promising" prevention program, *Michigan Model for Comprehensive School Health Education*, rather than a "science-based" prevention program as required by Title IV of NCLB. Per State Board Policy 03-01, there are three conditions which must be satisfied before approval of the use of a "promising" prevention program rather than an already established science-based program. Each of those conditions is listed in bold below.

**1. Is the program innovative?**

**2. Does the program demonstrate substantial likelihood of success?**

These two conditions, for innovation and substantial likelihood of success, are each satisfied because the U.S. Department of Education's Expert Panel has already

designated the program as “promising.” Policy 03-01 lists the Panel as one of the nationwide research groups that may recognize a new program as “science-based.”

**3. Is there a plan and timeline for submitting the program for review and recognition?** This condition requires that the plan be reviewed by one of the nationwide research groups identified in Policy 03-01, that the applicant show a commitment to supporting the scientific evaluation of the program and willingness to take part in clinical trials designed to measure program effectiveness, and that the applicant provide an annual report to the Waiver Office describing adequate progress for submitting the program for recognition as a science-based program. This waiver request meets this criterion, because Central Michigan University is in the process of submitting the program evaluation data to the Center for Substance Abuse Prevention. The program thus far shows a significant decline in students’ alcohol and drug use. Because the evaluation of the *Michigan Model for Comprehensive School Health Education* is already being submitted, there is not much the applicant can do to take part in the clinical trials.

### Summary

The Department recommends that this waiver request be approved as it meets each of the three criteria identified in the State Board waiver policy regarding the federal statute.

**Authority for Waiver:** NCLB, Title IV, Part A, Section 4115(a)(3)

**Local board approval date(s):** February 23, 2004

**Period of request:** May 13, 2004 to May 11, 2006

### FISCAL ANALYSIS (AS APPROPRIATE)

Waiver approval will allow the district to use Title IV, Safe and Drug Free Schools and Communities funds for this program.
